- # **Pests**(Arachnids, Mosquitos and Bed bugs)
- # **Hard and soft Floor disinfectants**

Caravan Park Safe

Protect campers, families & your team from **Bacteria, Germs, Pests & Mould**

Microguard
antimicrobial surface protection 24/7

Aged care & over 50's Safety

Protect staff, guests and their families from **Bacteria, Viruses, Mould & Pests**

Microguard
antimicrobial surface protection 24/7

Child Safe

Protect young learners & your childcare staff from **Bacteria, Viruses, Pests & Mould**

Microguard
antimicrobial surface protection 24/7

Accommodation and Strata Safety

Protect staff, guests and their families from **Bacteria, Viruses, Mould & Pests**

Microguard
antimicrobial surface protection 24/7

Military Safety

Protect staff, troops and their families from **Bacteria, Viruses, Mould & Pests**

Try Pitch

Microguard
antimicrobial surface protection 24/7

School Safe

Protect our youth & your teaching staff from **Bacteria, Viruses, Pests & Mould**

Microguard
antimicrobial surface protection 24/7

Mining & Accommodation Safety

Protect staff, and their families from **Bacteria, Viruses, Mould & Pests**

Microguard
antimicrobial surface protection 24/7

Commercial Safety

Protect employees, tenants & customers from **Bacteria, Viruses, Pests & Mould**

Microguard
antimicrobial surface protection 24/7

Chapter 2.

Product PPE, Safe storage requirements and how to applicate safely per product.

MG-SS
750ml / 5L / 20L

All Surface Disinfectant Cleaner **TGA Approved**

Hospital-grade disinfectant cleaner – kills bacteria and germs (including Covid-19)

Easy to use Surface Wipe 5-in-1, (disinfectant, cleaner, de-odour, mould, long-lasting protectant) **bacteria, germs, mould & Germs. (Independently tested and keep killing Bacteria and Germs, including Covid 19 upto 28 days on hard surfaces)**

A simple spray-on application to stop infestation. Active long-lasting protection.

Impact & uses – Peace of mind knowing that your site's surfaces are healthy and safe environments for your staff, 24/7

- Suitable for high-traffic surfaces, bench tops, handles, rails, chairs, desks, walls, shower, ect hard surfaces.

Tips 1. Squit direct stream directly onto an application cloth and wipe.

2. Don't over fill the application cloth, to minimise any chemical smell.

✓ Squirting the product into the rag, stops wastage and chemical smell.

✗ Don't spray the product.

How to apply –

1. Squirt undiluted disinfectant / cleaner into application cloth, wipe ensure the surface is totally wet, by wiping the solution all over the required surface, removing any dirt and grime, forming a layer, use on pre-cleaned surfaces only.
2. Allow the solution to dry for 10 minutes without wiping or drying with any other cloth, after 10 minutes, and once the surface is dry, it is ready to use.
3. Repeat as required for disinfecting and cleaning.
4. Do not use inside toilet bowl. Not to be used on medical devices or other therapeutic goods.

5. Repeat for regular cleans
Try Pitch

PPE Required – Wear PPE (Personal Protective Equipment) when using. Do not use for any other purpose than is described. .

1. PPE, P2 face mask, Eye protection, glover and protective work wear.

Safe handling and storage – Caution and handling: Keep out of reach of children and pets. Use undiluted. Do not mix with detergents or other chemicals. Avoid contact with eyes and skin – if contact with eyes or skin occurs, rinse well with water immediately, if irritation continues seek medical assistance. For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor (at once). Store below 30°C. Do not tip or pour down the drain or sink.

Chapter 2.

MG-AA300
300G Can

Area Deep Clean Micro-Mist Self Applicator

Ideal for Cabins, Hotel rooms, Class Rooms, Amenities, Rooms & Office spaces ect, The easy-to-use application kills

mould, bacteria & Germs, Reduces surface transmissions to keep Staff and clients safe.

Simple One-click action to initiate an antimicrobial area deep clean, Fully decontaminate & disinfect hard-to-reach spaces from germs and mould (including air-conditioning systems).

Impact & uses – Destroys pathogens on impact and as they are introduced, increases hygiene on all treated surfaces.

- Suitable all surfaces in **Cabins, Hotel rooms, Class rooms, Amenities, Rooms & Office spaces, all work area's.**

Required – watch training video below

How to apply –

1. Shake can vigorously for 20 seconds and remove the cap.
2. Place the applicator upright on a flat surface, central in the room, or equally spaced with multiple applicators to suit area size. Each applicator covers up to 50m² (50m² = 7x7mtr) for larger areas place multiple applicators equally spaced apart.
3. Close area doors and windows, turn air-conditioning systems on, too low and recirculate and cover water like fish tanks, toilet seats and remove all pets, (dogs, cats, reptiles ect).
4. **Isolate** – fire alarm systems (or cover smoke alarms), and **all ignition sources** (pilot lights, stoves, flames, hot surfaces etc.)
5. Wear PPE, a P2 mask, gloves, eye protection.
6. Press the trigger cap down, locking it in the open position, allowing the micro-mist to dispense. Don't spray into your eyes or mouth.
7. Leave the area, closing the door behind you.
8. Wait 30min's for the micro-mist to land and dry, and ventilate the area (open windows) before re-entering.
9. Mop the floor after application, as CRC in the applicator could make the floor slippery.

Repeat quarterly to increase hygiene level through the area. EVERY **3 months**

PPE Required – Wear PPE (Personal Protective Equipment) when using. Do not use for any other purpose than is described. .

1. PPE, P2 face mask, Eye protection, gloves and protective work wear.

Safe handling and storage – WARNING Flammable Aerosol. Do Not spray on open flame or other ignition sources. Pressurised container may burst if heated. Keep away from heat/sparks/open flames/hot surfaces– NO SMOKING. Pressurised container Do not pierce or burn, even after use. Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures greater than 50°C. KEEP OUT OF REACH OF CHILDREN. Read instructions before using.
